

FARGO RATE APP

Download FargoRate app from the Apple App Store or Android Google Play.

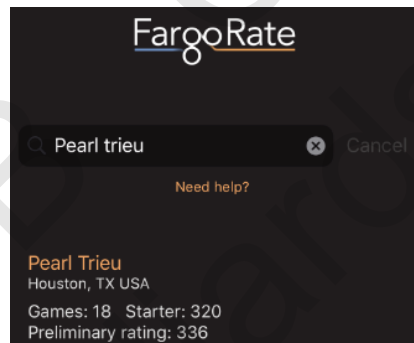

Open up FargoRate app and click on "Sign Up".
Enter your Player Name.

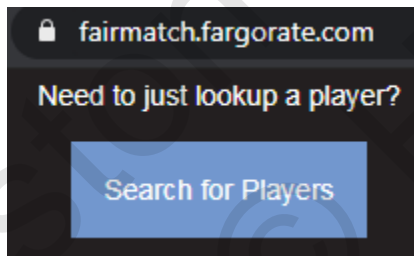

Once your name appears, click on it to claim your account. It will provide you with your Member ID #. **THIS IS THE ID # TO USE TO LOG INTO THE FARGORATE APP!**

Once clicked YES, follow prompts to claim your number. An email address is needed to confirm claim of the account.

After confirming your email, you can now log into the FargoRate app using your member ID # and the password you created.

If you have already claimed your number but do not remember what your Member # is, go to fairmatch.fargorate.com and click on "Search for Players". Enter your name and click on "Lookup". It will look up your name, Member #, Robustness, and current Fargo Rating.

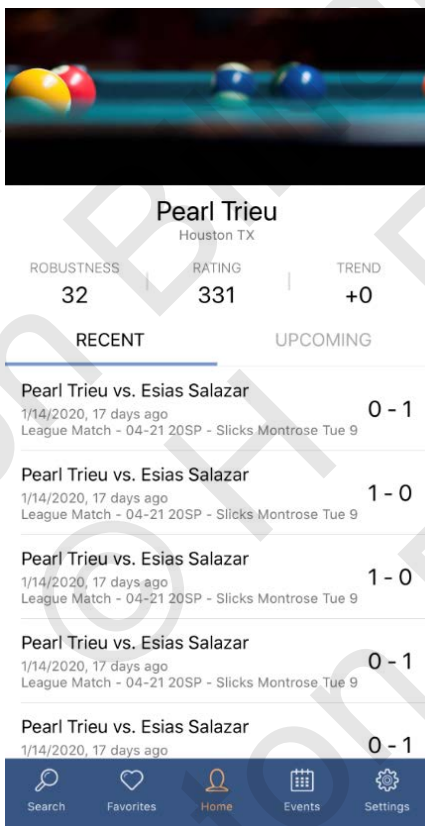

If still having trouble finding your Member # or trouble claiming your Member #, please contact support@fargorate.com

On the Home page, the FargoRate app will show your current Fargo Rating, as well as your Robustness (# of racks played thus far).

There are also two tabs that are useful: **RECENT** and **UPCOMING**.

The Recent tab displays a history of matches recorded and the results (win/loss).

The Upcoming tab displays upcoming matches. **This is very useful as you can find out who you're playing next without having to access the website schedule.**

You can also find players and their ratings, as well as a race calculator (keep in mind that the race calculator is DIFFERENT from the race chart we utilize on Thursdays).

Use the search bar to lookup players by name.
